

Drum turner - optimum drum handling

High flexibility and efficiency - the drum turner handles drums in the horizontal or vertical position, and of different materials and dimensions.

The drum turner with the quick shift system can readily be fitted on all Logiflex models with adjustable carriage.

A wide range of optional extras ensures an optimum utilisation of the Logiflex - the same Logiflex can be fitted with e.g. spear, platform, crane arm and forks.

High quality is ensured through an extended test programme and in cooperation with experts in Health and Safety.
