

Material Goods Lift

Cherry Picker Limited have been a leading expert in the supply of access machinery in Ireland since 1994. We have an experienced team of engineers that can provide the highest quality solution.

Our main office is located in Kilmoon Business Park, Ashbourne Co. Meath meaning we are a local manufacturer on the ground with excellent nationwide sales, service and support.

Why choose Cherry Picker Ltd

We have been a leading expert in access machinery since 1994 and as a result are experts in not just access machinery but also in handling solutions of every kind.

Our experienced team of in-house designers and engineers will create a solution for you that is fit for purpose and appropriate for your needs (we will never over sell) while also doing this to the highest possible standards in compliance with all relevant legislation.

Why do I need a Goods Lift

The benefits of a goods lift for your place of work are numerous and cannot be overstated. From vast improvements in productivity and efficiency to the incredible benefits seen from a health and safety and employee welfare perspective.

At Cherry Picker we build bespoke solutions for our clients with their requirements at the centre of everything we do. As a result, we have built many goods lifts of all shapes and sizes, indoors and outdoors.

The Process:

Here at Cherry Picker our experienced team assess what you require. Our engineers based of there assessment can provide a bespoke solution which will be designed to suit you.

Once we have your site assessed we can quickly begin the preparation and process of manufacturing the goods lift that you require. Our bespoke solutions can offer our customers the highest standard of quality that we can provide.

Customer Testimonials

“The lift that cherry picker designed for us completely changed our working procedures in our warehouse as we could open up our ground floor as pallets were able to go straight up to our upper level for unwrapping. Frank and his team were exceptionally professional and had a wealth of knowledge!” **Sean McNamara - Warehouse Owner, Kells**

“Cherry Picker installed a mezzanine lift for our goods in area of our factory and it has drastically improved health and safety as well as staff efficiency. Couldn’t recommend them anymore.”

Michelle - Health and Safety Manager (Logistics Company)

Cherry picker designed and manufactured a bespoke goods lift that fit within the constraints of our on-site requirements. They designed a fully galvanised weatherproofed goods lift that left it totally protected from the elements. This machine now allows the first-floor lab space to operate in the same manner as a ground floor lab space.”

“Our workspace layout was in desperate need of upgrading but we needed to store all of our heavy goods on the lower level. The mezzanine goods lift that Cherry Picker installed for us now allows us to store the heavy pallets upstairs and reduces the need to have a forklift on the ground floor.”

James McDonagh - Plastics Manufacturing Company Managing Director

Stephen Butler - Principal Research Scientist at Teagasc
